DIESEL DPF CLEANER (1) DPF FLUSH (2)

**Cleans the diesel particulate filter
To be used with MultiSERVE**

- 1) Wynn's DPF Cleaner has specially been formulated for the treatment of particulate filters that are blocked due to the presence of excessive solid deposits and that cannot be regenerated by normal methods.
- 2) Wynn's DPF Flush has specially been formulated as a DPF rinsing fluid. It must always be used after the treatment with Wynn's DPF Cleaner.

Properties

DPF CLEANER (1)

- ✓ Eliminates most of the solid deposits present in particulate filters with serious clogging problems.
- ✓ Reduces the backpressure in the exhaust restoring correct operation of the engine, enabling it to leave limp home mode (warning lamp in certain vehicles).
- ✓ Is a concentrated water-based cleaner with organic and inorganic surfactants.

DPF FLUSH (2)

- ✓ Always to be used after DPF Cleaner for completing the cleaning procedure.
- ✓ Neutralizes the alkalinity of DPF Cleaner and removes the dirt and the soot from the filter.
- ✓ Secures an excellent protection of the exhaust system as final stage of the cleaning.
- ✓ Ashless formula.
- ✓ Metal and combustion catalyst free.

BOTH PRODUCTS

- ✓ Do not affect the properties of the catalyst elements in the walls of the filters.
- ✓ Are chemically stable products.
- ✓ Are biodegradable.

Applications

- ✓ For diesel engines with all types of diesel particulate filters having serious clogging problems.

Product specifications

Directions

- ✓ Both products to be used only with Wynn's MultiSERVE – see operating manual.
- ✓ Use DPF Cleaner as first step in the DPF regenerating service of the MultiSERVE machine to soften the dirt inside the diesel particulate filter.
- ✓ Use DPF Flush as second step in the DPF regenerating service of the MultiSERVE machine to efficiently rinse the DPF and remove the majority of the dirt and soot particles from the filter.

Packaging

PN 18784 – Kit DPF Cleaner/DPF Flush – 6x(2x1 l) – EN/FR/DE/IT/RU/PL/ES/PT
