

## Air Duster

### Product Description:

Spanjaard Air Duster provides a high pressure blast of gas for cleaning dust and other contaminants from inaccessible areas of sensitive electronic and electrical equipment including office equipment, circuit boards, printers and keyboards.

- Penetrates difficult to reach areas.
- Safe on plastics.
- Low global warming potential and contains no ozone depleting substances.

### Typical Properties:

Appearance	Colourless and odourless
Gas Type	Propane/Butane Blend
Recommended Operating Temp °C	15-45°C
Density (g/ml)	0.56

### Application Instructions:

**NOTE: This product is flammable. Never spray onto live electrical equipment or near other ignition sources. Switch machinery off before use.**

Use product with can in an upright position. Do not invert can or shake can during use.

Spray in short bursts to areas to be cleaned.

The can may become very cold during use. Take necessary precautions (gloves) to prevent cold burns.

For optimum performance ensure that the product is warmed to 20-30°C while in use. Performance will be negatively affected when the product is cold.

**NOTE: Air Duster Non-Flammable** is available for applications requiring a non-flammable product.
