

## LECTRO KLEEN

**Spanjaard Lectro-Kleen** is a precision contact cleaner for use in industry, the office and home. It provides a convenient method of cleaning electronic and electrical equipment.

### APPLICATIONS

**Spanjaard Lectro-Kleen** is a selective solvent of the highest purity, especially suited for cleaning delicate components, where the use of a stronger solvent might lead to deterioration of the component.

To function efficiently, electronic equipment must be absolutely clean. The presence of minute amounts of contamination on switches, controls, relays, etc., causes a build up of resistance, which interferes with the flow of current.

### For Use In:

- **Electronics:** Computers PC Boards, Relays.
- **Electrical:** Switches, Electro-mechanical Devices.
- **Telecommunications:** TV, Transceivers, Connectors.
- **Avionics:** Radar, Navigational Equipment.
- **Home:** DVD and Blu-Ray players, Audio Equipment, Televisions
- **Office:** Telephones, Switchboards, Calculators, Computer Keyboards and Cash Registers.

**Note:** **Spanjaard Lectro-Kleen** is flammable and should not be sprayed onto live equipment.

It does not attack metals, plastics, rubbers, paint or lacquers. It dries quickly without leaving any film or residue. **Spanjaard Lectro-Kleen** reduces costs because components can be cleaned in situ without dismantling. It eliminates damage due to hand cleaning.

### APPLICATION INSTRUCTIONS

The components to be cleaned are sprayed directly with **Spanjaard Lectro-Kleen**. The solvent dissolves grease and loosens dirt, which is then flushed away by the spray. The extension nozzle allows the spray to be directed exactly to where it is needed, so that there is no excessive waste.

### TYPICAL PROPERTIES

Colour	Clear
Density	0,67

### HANDLING AND STORAGE

**Caution:** **Bulk:** Flammable. Store indoors. Keep container closed to minimise evaporation. Keep out of reach of children. Ensure good ventilation during use. **Aerosols:** : Extremely flammable aerosol. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50° C. Keep away from heat / sparks / flames / hot surfaces. No Smoking. Do not pierce or burn, even when empty. Do not spray onto an open flame or any incandescent material. 80% by mass of the contents are flammable. Use only in well ventilated areas. Keep out of reach of children.

### PACKAGING

200ml and 400ml aerosols.  
5 litre tin.  
20 litre drum.
